

FOR IMMEDIATE RELEASE

**AIR-TRANSPORT IT SERVICES, INC. WINS CITY OF HOUSTON AIRPORT
SYSTEM CONTRACT TO PROVIDE PROPERTY AND REVENUE
MANAGEMENT SYSTEM**

January 3, 2005, Orlando, FL -- Air-Transport IT Services, Inc. (AirIT), a key provider of diversified information technology products and services to the air transportation industry, today announced the award of the contract to provide the Houston Airport System with PROPworks®, a comprehensive property and revenue management software solution. The purpose of PROPworks® is to facilitate the revenue management function of airports by managing agreements with tenants, service providers, and other businesses and generating invoices related to these agreements. The modules purchased by the City consist of Agreement Management, Company & Contact Management, Retail Sales Management, Billing & Invoicing, Space Management, Aeronautical Statistics, Tenant Alterations Management, Utility Management, and Oracle's E-Business Suite.

“The Houston PROPworks® contract brings the number of airports that will be using PROPworks® to manage property and revenue to eighty-one, reinforcing the confidence that the airport industry has in AirIT and our software solutions” said Betros Wakim, president and CEO of AirIT. “The vast majority of an airport’s revenue is derived from activities such as aircraft movements, concession sales, and tenant leases, and PROPworks® was designed specifically to manage and bill for these activities.”

"We put a lot of time and effort into finding the best revenue and property management solution for the Houston Airport System, and we are looking forward to working with AirIT. PROPworks will help ensure that we maximize our agreement and activity based revenue at Houston's three airports”, said Frank Haley, Chief Information Officer, Houston Airport System.

About Air-Transport IT Services, Inc.

Air-Transport IT Services, Inc., with corporate offices in Orlando, Florida, offers airlines and airport IT systems that enable them to deliver, display, manage and employ information that improves operations, customer satisfaction, and revenue generation. The company's airport operational and revenue management solutions are the most comprehensive offering available to the global air transportation industry. AirIT solutions are based on open systems and run in a client/server and web based environment. In addition to its product offerings, AirIT also provides consulting services, networking and installation, and 24 X 7 support.
