

FOR IMMEDIATE RELEASE

**TWO MORE U.S. AIRPORTS INTRODUCING COMMON USE PASSENGER
PROCESSING IN 2005 WITH THE AIR-TRANSPORT IT SERVICE, INC.
EXTENDED AIRLINE SYSTEM ENVIRONMENT (EASE™)**

January 3, 2005, Orlando, FL -- Air-Transport IT Services, Inc. (AirIT), a key provider of diversified information technology products and services to the air transportation industry, today announced the award of contracts to provide Northwest Chicagoland Regional Airport (RFD) and Sarasota-Bradenton International Airport (SRQ) with their innovative EASE™ common use passenger processing solution.

EASE™ provides both airport operators a new solution for optimizing facilities utilization throughout the terminal while providing the airlines with secure, direct and emulation-free connections to their respective native host computer applications. EASE™ helps airports and airlines achieve extraordinary responsiveness in a cost effective and service responsive manner.

“We’re very excited that Rockford and Sarasota-Bradenton have chosen EASE™ as their common use passenger processing platform. EASE™ will enable these airports to attract more carriers and handle more operational activity without adding to their brick and mortar investment” said Betros Wakim, president and CEO of AirIT.

About Air-Transport IT Services, Inc.

Air-Transport IT Services, Inc., with corporate offices in Orlando, Florida, offers airports and airlines information technology systems that enable them to deliver, display, manage and employ information that improves operations, customer satisfaction, and revenue generation. The company's airport operational and revenue management solutions are the most comprehensive offering available to the global air transportation industry. AirIT solutions are based on open systems and run in a client/server and web based

environment. In addition to its product offerings, AirIT also provides consulting services, network installation and 24 X 7 support.
